

The latest 'must have' for the contemporary home. With unparalleled innovation, function and build quality. The Rolaway Underground Hose is NOW AVAILABLE. Please see specs sheet for prices.

## The Rolaway Underground Hose System can make using a hose so much easier.

Easily installed anywhere, the unit stores 20 metres of hose completely out of sight and is auto retractable. The casing is designed to be set in concrete, into paving or to go straight into the ground near your tap. All components are stainless steel or high strength UV protected nylon. The Rolaway hose is an Australian made product built to last, combining the best of good design, ergonomics and function.
